

KALEO 2020 Job Opportunities

General Information

Please understand that it is your responsibility to get a job for the summer. The Kaleo Jobs Director will email you regarding possible jobs for the summer. Most of the employers on the list won't guarantee you a job until you get there, but many are excited about the idea of hiring you. If you think you know where you would like to apply, give them a call and let them know. Be prepared to send your résumé or have them send you an application. Make sure they understand the limitations about your working availability, and make sure you talk with the Kaleo Jobs Director, before you accept a job.

Financial Information

We want our students to be successful this summer, whether it's spiritually, physically, emotionally or financially. We have support raising training where students can learn how to share their vision for the summer with friends and family to partner together, and we also allow the students to get 40 hour/week jobs to help fund their expenses, pay for the project and take money home with them for the fall semester. We delay the rent payments as much as possible to give students the necessary time to pay for the project.
